For **CUSTOM SERVICES** and  
**NATIONAL PLANT PROTECTION**  
or **QUANTINE SERVICE**

### **MANUFACTURER'S CERTIFICATE**

(This document is not required by an import regulation, it is voluntarily issued)

Date - 2021-01-08

We confirm that the moulded INKA particle board pallets used in this consignment by our client :

**Name Company**  
**Address**  
**City (Country)**

are manufactured, in the same way as particle board. After drying the wood at 300 F degrees to a moisture content of only 4 % , it is moulded in addition with synthetical binder under a pressure of approx. 1300 psi and 400 F degrees. This moulding process can not be survived by any plant pests. Wood based panels can be used as packing or as pallets without fumigation or heattreatment.

Therefore these pallets are **entirely composed of manufactured** wood according to the international guidelines for phytosanitary measures IPPC-ISPM15

**We confirm that these moulded particle board pallets are heat processed wood, so they are considered as sufficiently processed and totally free from any plant pests according to FAO-IPPC-ISPM15**
